Kirei — Sabi

Porque tudo mudou, a busca por novas formas de equilíbrio tornou-se imperativa.

O conceito de bem-estar transformou-se e a casa tornou-se o centro de tudo, o reflexo do nosso interior. Um lugar seguro, onde as nossas memórias coexistem com o novo e os projetos do futuro. Tudo é redefinido por novos modos de ser e de estar, em que a imperfeição se transforma em conforto, e a beleza passa a estar na elegância contida, sustentável, significativa e intemporal.

O conceito Kirei - Sabi reflete a essência da aceitação da imperfeição, à qual se acrescenta elegância e delicadeza. A elegância dos revestimentos cerâmicos vidrados, Kirei, aliada à beleza da imperfeição de um cimento em grés porcelânico, Sabi.

Because everything has changed, the search for new forms of balance has become an imperative.

A different concept of well-being has transformed the home into the centre of it all, the reflection of our inner self. A safe haven where our memories coexist with new and future projects. Everything is redefined by new ways of being, in which imperfection unfolds into comfort, and beauty is in contained, sustainable, meaningful and timeless elegance.

The Kirei - Sabi concept reflects the essential acceptance of imperfection, to which elegance and fineness is attached. The elegance of Kirei glazed ceramic wall tiles, combined with the beauty of the imperfection of Sabi full body porcelain cement.

minimalist elegance

a elegância minimalista

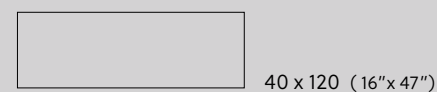

Um conjunto de novas coleções que permitem imergir num mundo mais límpido, de uma estética comovente e bem proporcionada, promovendo o bem-estar interior e exterior, através da naturalidade, simplicidade e subtileza de detalhes.

A naturalidade das cores, relevos e múltiplos formatos coexistem em harmonia, conjugando-se entre si ou com o efeito de outros materiais como a madeira, para desenhar projetos com diferentes personalidades: simples ou mais sofisticados, urbanos ou rústicos, mais jovens ou familiares.

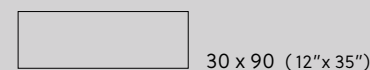

The new collections allow one to immerse oneself in a clearer world, with touching and well-proportioned aesthetics, promoting inner and outer well-being, through naturalness, simplicity, and subtlety of detail.

Natural colours and relief in different sizes coexist in harmony, in combination or with the effect of other materials such as wood for designing projects with a range of personalities: simple or more sophisticated, urban or rustic, modern or familiar.
